

Technical Data Sheet

Burdett's Granitic Gravel

Burdett's Granitic Gravel is a cost-effective, material consisting of naturally occurring coarse gravel used for paths, driveways or courtyards.

- Vibrant terracotta colour that fades over time to a sandy beige colour.
- Natural adhesive qualities which provides good binding characteristics and enables it to be used even on steep surfaces.
- Used as a landscaping feature, providing a durable, low-maintenance finish for gardens with a low water demand.
- Easy to lay and remains flexible; can be dug up and re-laid if needed.

Note: Colour and sizing may vary slightly as this is a natural product.

Note: 10mm minus nominal sizing

Granitic Gravel is available in bulk ex-bin or delivered.

Please contact sales for detailed information on availability and pricing.
