## Burdett's Tuscan Toppings

Burdett's Tuscan Toppings are an attractive light-brown topping with a variety of earthy tones.

It is a suitable substitute for Granitic Sand / Gravel.

Tuscan Toppings can be used for driveways and pathways; with suitable compaction, such as a vibrating plate it will provide a firm base. It can also be stabilised with cement at 3 – 5%.

Tuscan Toppings should ideally be placed at a depth of 50 – 75 mm over an equivalent thickness of solid base such as crushed rock.

Note: Colour and sizing may vary as this is a natural product.

**As delivered**

**After rain or washing**

**Nominal sizing: 10 – 20 mm**

Note: Tuscan Toppings as delivered will typically have a thin coating of dust which can initially detract from the product's appearance. This will naturally wash away in time or can be easily removed by spraying with a garden hose.

**Top Dressing Sand is available in bulk ex-bin or delivered.**

**Please contact sales for detailed information on availability and pricing.**
